

CHE120: Game Rules

1. Click the *Start* button to begin the game.
2. Choose which gender category you would like to play in, whether you want to dress a male or female professor.
3. Select a professor avatar to dress; pick *any* from the list provided. This depends on which gender was selected in the previous step.
4. Enter the closet, where you will receive a style prompt for your outfit (the prompt only remains on the screen for 5 seconds).
5. Open the (sliding) closet menu by clicking the closet bar and start dressing your character.
6. Build your outfit: mix and match items from the shirts, pants, shoes, and hats categories!
7. Make sure to watch the timer! You have 30 seconds to complete your outfit. Once your time runs out, your choices are automatically submitted.
8. Walk the runway! After the timer finishes, your outfit will be ranked (scale of 1-10) on the runway page based on how well you matched the prompt.
9. Play again or quit. If you're not satisfied with your score, click Yes when prompted to play again, or select No to exit the game.
